EXECUTIVE SUMMARY

The Corporate Governance Rating of 9.50 that has been assigned to Türkiye Petrol Rafinerileri A.Ş. ("Tüpraş" or "the Company") on October 3, 2019 is hereby revised as **9.58**. SAHA's rating methodology is based on the Capital Markets Board's (CMB) "Corporate Governance Principles" ("the Communiqué") released on January of 2014.

SAHA publishes (annually) the World Corporate Governance Index (WCGI) which ranks countries in terms of their level of compliance with corporate governance principles as well as their germane institutions, rules, codes, and regulations together with international standards and indices which evaluate countries in a vast array of areas such as transparency, corruption, ease of doing business, etc.. Tüpraş is analysed as a Turkish company and Turkey takes place at the top classification of the WCGI which is Group 1. Details of the World Corporate Governance Index (WCGI) published by SAHA on October 8, 2019 can be accessed at <http://www.saharating.com>.

Tüpraş is rated with **9.55** under the **Shareholders** heading. Exercise of shareholders' rights complies with the legislation, articles of association and other internal rules and regulations, and measures have been taken to ensure the exercise of these rights. Tüpraş carries out the investor relations obligations through Investor Relations Department. There is no upper limit or privileges on voting rights. All procedures prior to the general shareholders' meeting as well as the conduct of the meeting comply with the legislation. There is a consistent dividend policy of the Company and it is disclosed to the public. There are no restrictions on transfer of traded shares. There is a provision in the articles of association on holding general shareholders' meetings open to public. On the other hand, prescribed rate of minority rights for public joint stock companies (5%) is adopted as it is in the articles of association of the Company.

Tüpraş attained **9.72** under the **Public Disclosure and Transparency** chapter. There is a comprehensive web site which includes all information listed in the CMB Corporate Governance Principles pertinent to "Public Disclosure". Public announcements are made via all communications channels and are in accordance with CMB and Borsa Istanbul A.Ş. (BIST) rules and regulations. Company's web site is also prepared in English for international investors. However, the fact that the names of the Company's ultimate controlling individual shareholders over 5% as identified after being released from indirect or cross shareholding relationships between co-owners are not disclosed to the public and again non-disclosure of the benefits provided to board members and senior management on individual basis are areas in need of further refinement.

On the topic of **Stakeholders**, Tüpraş scored **9.95**. The exercise of stakeholders' rights has been facilitated. A written compensation policy for the employees is established and disclosed to the public on the corporate web site. During the rating period, the Company was not held liable by any public authority for any punishment/sanctions. Code of ethics is publicly available through the Company's web site. The mechanisms that support the stakeholders' participation in the Company management have been documented through internal regulations. The Company has a written human resources policy. Sustainability policy and practices are found satisfactory. Social responsibility activities are at top level.

From the perspective of the principles regarding the **Board of Directors**, Tüpraş's tally is **9.33**. There is a well communicated Company mission and vision. The board consists of eleven members and none of them holds executive duties. CMB criteria are complied with for the appointment of independent members. Corporate Governance, Audit, Risk Management, and Executive Committees are established within the board of directors. The working principles of the Committees are disclosed to the public. Principles of remuneration of board members and senior executives are available on the Company's web site. The Company does not provide any loans or extend any credit to the board members or senior executives. There is a manager liability insurance that meets the conditions specified in the Communiqué. On the other hand, the lack of a female membership policy approved by the board of directors and the fact that the conduct of the board of directors meetings has not been put in writing through internal regulations are identified as areas open for improvement.

Rating Methodology

SAHA's methodology for rating the degree of compliance with the Principles of Corporate Governance is based upon the CMB's "Corporate Governance Principles" released on January 2014.

The CMB based these principles on the leading work of The World Bank, The Organization of Economic Cooperation and Development (OECD), and the Global Corporate Governance Forum (GCGF) which has been established in cooperation with the representatives of the preceding two organizations and private sector. Experts and representatives from the CMB, Borsa Istanbul and the Turkish Corporate Governance Forum have participated in the committee that was established by the CMB for this purpose. Additionally; many qualified academicians, private sector representatives as well as various professional organizations and NGOs have stated their views and opinions, which were added to the Principles after taking into account country specific issues. Accordingly, these Principles have been established as a product of contributions from all high-level bodies.

Certain applications of the Principles are based on "comply or explain" approach and others are mandatory. However, the explanation concerning the implementation status of the Principles, if not detailed reasoning thereof, conflicts arising from inadequate implementation of these Principles, and explanation on whether there is a plan for change in the Company's governance practices in

future should be mentioned in the annual report and disclosed to public.

The Principles consist of four main sections: shareholders, public disclosure and transparency, stakeholders, and the board of directors.

Based on these Principles, the SAHA Corporate Governance Rating methodology features around 330 sub-criteria. During the rating process, each criterion is evaluated on the basis of information provided by the Company officials and disclosed publicly. Some of these criteria can be evaluated by a simple YES/NO answer; others require more detailed analysis and examination.

SAHA assigns ratings between 1 (weakest) and 10 (strongest). In order to obtain a rating of 10, a company should be in full and perfect compliance with the Principles (see Rating Definitions, p.22).

To determine the total rating score for each main section parallel to the CMB's Corporate Governance Principles, SAHA allocates the following weights:

Shareholders: **25%**
Public Disclosure and Transparency: **25%**
Stakeholders: **15%**
Board of Directors: **35%**

To determine the final overall rating, SAHA utilizes its proprietary methodology which consists of sub-section weightings and weightings for the criteria there under. A separate rating is assigned to each one of the main sections as well.

We have come to the conclusion that information and explanations that may affect use of shareholders' rights is available up to date on the corporate web site. The fact that no such related penalty/warning was received during the period supports our opinion.

1.2. Shareholders' Right to Obtain and Evaluate Information:

There is no evidence of any hindering process or application regarding the appointment of a special auditor at the request of shareholders.

All kinds of information about the Company are provided in a complete, timely, honest, and diligent manner and there is no fine/warning received in this direction within the rating period.

The Company has established a disclosure policy and disclosed it to the public on the corporate web site.

1.3. General Shareholders' Meeting:

In addition to the methods of invitation in the legislation and in order to ensure attendance of maximum number of shareholders, the invitation to the general shareholders' meeting held on April 1st 2020 covering 2019 fiscal year is performed through all means of communication available to the Company on March the 2nd 2020 in accordance with the Corporate Governance Principles.

All announcements prior to the general shareholders' meeting included information such as the date and time of the meeting; without any ambiguity exact location of the meeting; agenda items of the meeting; the body inviting to the general shareholders' meeting; and the exact location where annual report, financial statements and other meeting documents can be examined.

Besides, the Company has prepared a descriptive disclosure document on agenda items.

Commencing from the date of announcement of invitation for the general shareholders' meeting; the annual report, financial statements and reports, and all other related documents pertaining to the agenda items are made available to all shareholders for examination purposes in convenient locations including the headquarters or branches of the Company, and the electronic media.

Shareholders are informed of the total number of shares and voting rights reflecting the Company's shareholding structure as of the date of disclosure and whether there are any privileged share groups within the Company capital via the corporate web site.

Agenda items were put under a separate heading and expressed clearly in a manner not to result in any misinterpretations. Expressions like "other" and "various" were not used. Information submitted to the shareholders prior to the conduct of the general shareholders' meeting was related to the agenda items.

Due to the Covid-19 pandemic, our observers did not attend the general shareholders' meeting held in 2020, and the statement of the Company officials was referred for some of the control points highlighted by us in the past years. In this context, it has been declared that items on the agenda were conveyed in detail and in a clear and understandable way by the chairman of the meeting and shareholders were given equal opportunity to voice their opinions and ask questions. The Company statement is in line with the opinion we have reached over the past years.

Agenda of the general shareholders' meeting included the proposal for the permission to be granted to shareholders who have control of the management, members of the board of directors, managers with administrative responsibility, their spouses and up to second degree blood relatives to execute transactions and compete with the Company and/or its affiliates, to make a commercial business transaction for himself or on behalf of others or to join to another company dealing with the same type of commercial business as a partner with unlimited responsibility.

The members of the board of directors related with the issues of a special nature on the agenda, other related personality, authorized persons who are responsible for preparing the financial statements and auditors were present to give necessary information and to answer questions at the general shareholders' meeting.

The Company has established a policy on donations and submitted to the general shareholders' meeting for approval. Shareholders are informed, with a separate agenda item, on all donations effectuated during the period and the amount of benefits and beneficiaries at this meeting.

The general shareholders' meetings are held open to public including stakeholders and the media without the right to vote, and there is a provision in this regard in the guidelines of the general shareholders' meetings.

General shareholders' meeting is attended by the representative of the external auditor.

1.4. Voting Rights:

Tüpraş's issued capital is TL 250,419,200.00 which is fully paid. The issued capital is divided into

25,041,920,000 shares, each with a nominal value of One Kurus (TL 0.01), divided into two groups as (A) and (C).

As stated in the Company's articles of association; a total of 1 (C) group share has a veto right on decisions regarding merger, division or liquidation of the Company which will restrict and/or prevent fuel need of the Turkish Armed Forces.

In addition, one registered (C) group share belonging to the Republic of Turkey Prime Ministry Privatization Administration has the privilege to nominate a candidate to the board of directors.

Apart from the stated regulations, there are no privileges regarding voting rights.

The Company avoids applications that make it difficult to exercise voting rights and all shareholders, including those who reside abroad, are given the opportunity to exercise their voting rights conveniently and appropriately.

1.5. Minority Rights:

Maximum care is given to the exercise of minority rights. However, minority rights are not recognized for shareholders who hold an amount less than one-twentieth of the share capital and the Company has adopted the rate foreseen in the legislation for listed companies.

There is no evidence of any conflict of interest between the majority shareholders and that of the Company.

1.6. Dividend Rights:

The dividend policy of the Company is clearly defined and disclosed to the public on the corporate web site and submitted to the shareholders for approval at the general shareholders' meeting.

The Company's dividend distribution policy contains minimum information clear enough for investors to predict any future dividend distribution procedures and principles. It has been evaluated that a balanced policy is followed between the interests of the shareholders and that of the Company.

Since there was no profit reported on financial statements prepared in accordance with the provisions of the Tax Procedure Law in fiscal year 2019, a non-distribution of dividend was approved by a majority vote at the ordinary general shareholders' meeting.

1.7. Transfer of Shares:

Neither the articles of association of the Company nor any resolutions adopted at the general shareholders' meeting contain any provisions that impede the transfer of shares which are publicly traded. There is a provision in the articles of association of the Company stating that "the Capital Market Board regulations shall be applied in connection with the transfer of the registered shares of the Company transacted in the stock exchange".

In this context, the board reviews the effectiveness of risk management and internal control systems at least once a year. The presence, functioning, and effectiveness of internal controls and internal audit are explained in the annual report.

Chairman of the board and chief executive officer/general manager's executive powers are clearly separated in the articles of association.

The board of directors plays a leading role in maintaining effective communication between the Company and the shareholders and settling any disputes which may arise. The board works in close coordination with the Corporate Governance Committee and the Investor Relations Department in this context.

There is a manager liability insurance on compensation for losses incurred by the Company, and third parties, as a result of not performing the executives' duties duly. The policy amount is in excess of 25% of the Company's capital as recommended in the Communiqué, and the related explanation is included in the annual report.

The Company's board of directors is composed of eleven members with no executive members. Among the non-executive board members there are four independent members who have the ability to execute their duties without being influenced under any circumstances.

The Corporate Governance Committee have prepared a report on the candidates proposed by the board and shareholders, by taking into consideration of whether or not the candidate meets the independency criteria and submitted this assessment as a report to the board for its approval. Independent candidates for the board of directors have signed a declaration of independence within the framework of the legislation, articles of association, and the CMB criteria.

There are two female members on the board of directors and currently represents 18% of the board. The principle of determining a policy or setting a timetable to reach the Communiqué's advisory target of minimum 25% female membership rate on the board of directors has not yet been complied with.

Board meetings take place with sufficient frequency. As per the notification made through CGIF, the board of directors held 3 physical meetings in 2019 and passed 30 resolutions. The participation rate of the members was 91%.

With the exception of the independent members, care is taken to avoid appointment of a board member on multiple committees.

All necessary resources and support needed to fulfill the tasks of the Committees are provided by the board of directors. Committees can invite any manager as they deem necessary to their meetings and obtain their views.

The frequency of Committee meetings is found sufficient. According to the CGIF disclosure, in 2019 the Corporate Governance and the Audit Committees met 7 times each and the Risk Management Committee held 6 meetings.
